What demands and needs are met by this product?

These products are for commercial policyholders who need levels of cover for their business activities in the event of a loss. For primary business the terms and conditions are set by our underwriters. For excess business the coverage generally follows the terms and conditions of the underlying primary insurance policy, but may be subject to additional terms or exclusions.

Who is this product designed for?

These products are designed for businesses who operate within the marine industry, across a range of sectors. The businesses can be located worldwide apart from the US.

Who is this product not suitable for?

These products are not suitable for companies domiciled or operate within the US. These products must not be sold to consumers.

How do we expect this product to be distributed?

These products are suitable to be distributed via a variety of sales channels.

What are the distributor value considerations?

Distributors should consider the impact on product value of offering other products alongside this one, especially those with proportionally greater remuneration. For example, an ancillary product, elements of which may duplicate existing cover, premium finance charged at an elevated rate of APR. Our expectation is that additional commission, fees or charges added, as part of distribution processes must be proportionate to the service provided, in line with those charged elsewhere, and not affect the overall value offered by the product.
